WEBEX MEETING LINK

Meeting number: 2462 154 9028 Password: imJcg44Fru6

Please join the AGIC Outreach Committee for a virtual roundtable discussion with our private partners and learn from the experts about what federal funding opportunities are available and discuss strategies to access and support geospatial activities.

Note: This session is intended for anyone in the geospatial industry interested in funding opportunities. You do not need to be an executive decision maker to benefit from the discussion.
